

INTERACT Media Defined

When measurement matters

24th March 2020

To all readers and advertisers,

As you will all know, the country goes into full lockdown from midnight on Thursday 26th March to midnight 16th April.

We support our government's decision as necessary to contain the spread of the virus and trust that South Africans will have the discipline to support and enforce this action.

As the DG of the WHO stated, "...Now the virus is chasing us – we need to be chasing it."

As with all businesses we are not immune to the challenges this presents, but we wish to assure everyone that both our digital and online versions of our print publications – April issues – are available online. Any April publication not posted due to the lockdown will be posted immediately upon our return.

Please take advantage of the digital version of our publications; and we give the assurance that through both our local and international connections, we will keep you as up to date as possible online.

All May issues will be finalised on our return with a full attempt on our part to minimise delays. We will continue to support our industries as best we can under these trying but necessary circumstances.

Mining & Technical Exhibitions (MTE) will postpone all shows up to the end of May, and these will be rescheduled in the second half of the year. We will keep you informed when we have more information on new dates.

If you have any queries, please feel free to contact any of the directors listed below during this period.

Sean Macnamara
Financial and operational director
